Relocating from offices in Bond Street, the client wanted to create a stylish and contemporary working environment to reflect their success as a business and allow for expansion.

The monochrome scheme is complimented with splashes of red and high spec finishes are giving a striking minimalist look, in keeping with the building's architecture.

Client facing areas have a spacious feel and were given particular attention and boast furniture classics including Knoll and Eames design pieces.

Area Sq played with the lighting to create visual impact whilst complying with 30 St Mary Axe's strict regulations.
