

UK Payments

Location: 2 Thomas More Square, E1W
Value: £Undisclosed
Size: 33,500 sq ft
Duration: 12 weeks

UK Payments Administration Ltd employs over 150 people providing resource, facilities and expertise to the UK payments industry. The company decided to relocate to Thomas More Square and appointed Area Sq as office design and fit-out specialists.

UK Payments wanted their office interior to have a modern feel, as well as being both warm and welcoming. The space also had to reflect UK Payments' innovative culture and maximise the use of natural light.

To this end, Area Sq designed the office space around glass partitioning allowing the light to flow freely. Furthermore, by introducing new ceilings and lighting, Area Sq was able to enhance this feeling of space.

Kat Wickens, Designer at Area Sq adds: "The subtle use of wood within the design gave a feeling of warmth and quality and was complemented by the neutral tones used on the walls and flooring."

The project was completed on time and on budget. UK Payments are delighted with the results.

Gary Hocking, Director of Operations at UK Payments adds: "We approached Area Sq with a long list of special requirements; however instead of balking, the design team directly and innovatively addressed each and every challenge. All the hard work has paid off as we have managed to achieve a light and modern look which is practical and which will work perfectly for our needs."
